

# **SV8100 – Positioning**

**Pre-Sales Support  
UNIVERGE SV8100  
Release 4**

**Doc. Version 4.02**

# Agenda

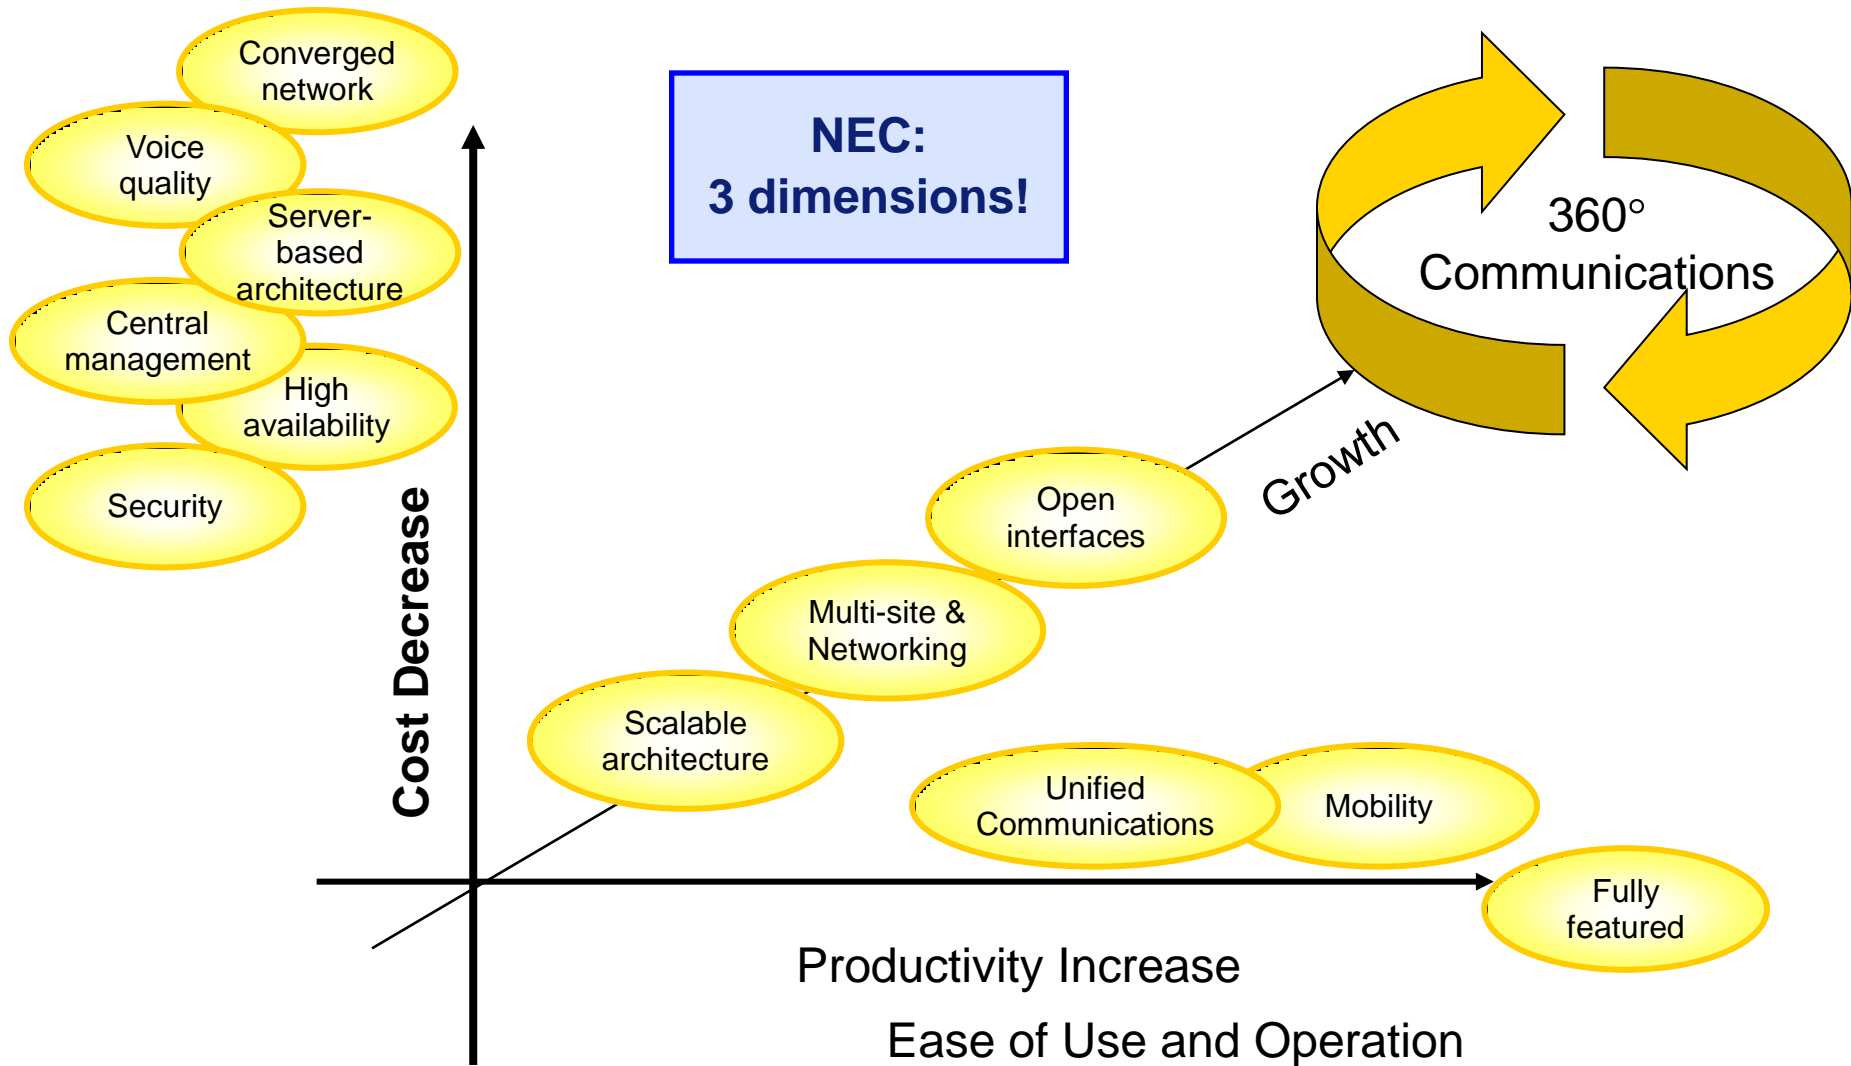

- Customer requirements
- SV8100 / SV8300, the answer
- NEC is telephony market leader
- SV8100 / SV8300 strategy in EMEA
- Applications right from the start
- SMB positioning
- Value propositions

*More info about positioning in SV8100 Sales training:*

- *Andre Deijlen – Business Manager*

# Customer requirements

# NEC has the answer

## Role-based communications *putting people at the centre of communications*

# SV8x00, the answer

**SV8X00 is the answer to the strong market request to have a new Telecommunications Solution addressing today's needs and providing a future proof solution**

## SV8100

- Improved Appearance
- No longer a TDM box
- Stackable IT-rack design
- In-skin PoE Gbit/s switch and Router
- Pure IP system
- And optional TDM capability
- SIP phones – Standard and NEC proprietary
- SIP trunking

# SV8100, the answer

## Improved Terminals and user interface

- DT310, 350, 710, 730, 750, BT, many adapters and accessories
- Enhanced security, XML

## Easy installation & maintenance

- PC Pro enhanced
- Many ways to configure new telephones

## Increased capacity

- NetLink to build 1 Single Distributed System
- InMail capacity improved (ports, mailboxes, messages)
- Daughter boards iso blades (e.g. no slot needed for IPLA)

## Improved functionality

- Basic telephony functions added to SV8100
- Survivability by NetLink
- Improved functionality of InMail and InACD

# SV8100, the answer

## More application support

- Desktop Suite – 1 integrated solution, video conf.
- BCT all-in-1 suite, UM8000, WLAN, Tiger, RCC, etc.
- Application improvements, like NetLink support

## More openness

- Standard SIP, SIP phones
- SIP-trunk server integrated in CPU
- XML, Hospitality middleware, O&M interface
- OAI, K-CCIS, O&M, remote upgrade

## NEC SV8x00-family approach

- Common software: applications,
- Common hardware: communication blades, chassis
- Common telephones and accessories
- Shared developments / roadmap
- Featured networking

*More steps to make!*

## Global Company

- ⑩ Revenues: \$39 billion\*
- ⑩ Employees: 142,358 Worldwide
- ⑩ \$3B + in research and development
- ⑩ 4 Main R&D centers worldwide
- ⑩ Patents: 71,000 worldwide; including among annual top rankings of new U.S. patents for the last 12 years
- ⑩ Fortune Global 500: Ranked 185<sup>th</sup>
- ⑩ 79<sup>th</sup> Largest Manufacturer Worldwide

\*As of March 31, 2010

# NEC Unified Solutions continues to outperform

Canalys Pi EMEA Q3 2010

Unified Communications Analysis

# Gartner's observations regarding NEC

- NEC is a **financially strong global firm** with established presence in all regions and a broad portfolio
- NEC has credibly moved into a **more-sophisticated integration with the IT world**
- .. **strengths in vertical sectors** in hospitality, healthcare, government, education, manufacturing & service industries, **from small-scale to the largest enterprise deployments**
- Promising investment in **software-based communications** platforms
- SV8000 series and development platform deliver an **open web services architecture**
- **early adopter of virtualization** for data-center deployments
- UNIVERGE 360 enables solutions based on the **role of the individual** within an organization
- NEC's hosted and managed services is a **distinctive service provider solution** for telephony and higher-level IT application delivery

# Why Choose NEC?

## Communications Leadership

- Leading global enterprise telephony solution provider
- Front runner in mobile technology and solutions
- Extensive expertise in UC solutions

## Communications Innovation

- 100+ year history in ICT, known for driving innovation
- On the cutting edge of emerging areas such as UC, FMC and SOA
- Credibly moved into sophisticated integration with the IT world

## Business Leadership

- Financially strong global player with a multi-country marketing approach
- Has shown stability not enjoyed by many top suppliers in recent years
- Environmentally friendly solutions that are low in energy consumption

## Technology Vision

- Adheres to open standards, ensuring optimal flexibility
- Evolutionary approach, protecting existing investments to the maximum
- User-centric approach, placing people at the centre of communications

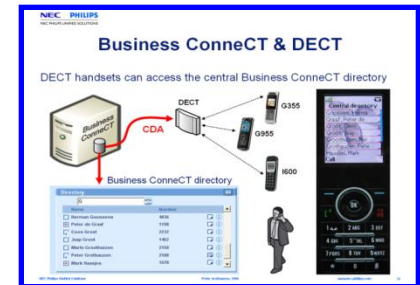

*Spanning the **full spectrum of ICT** products, services and solutions, we are a **reliable and stable partner** that combines global scope with local presence*

# SV8x00 strategy in EMEA

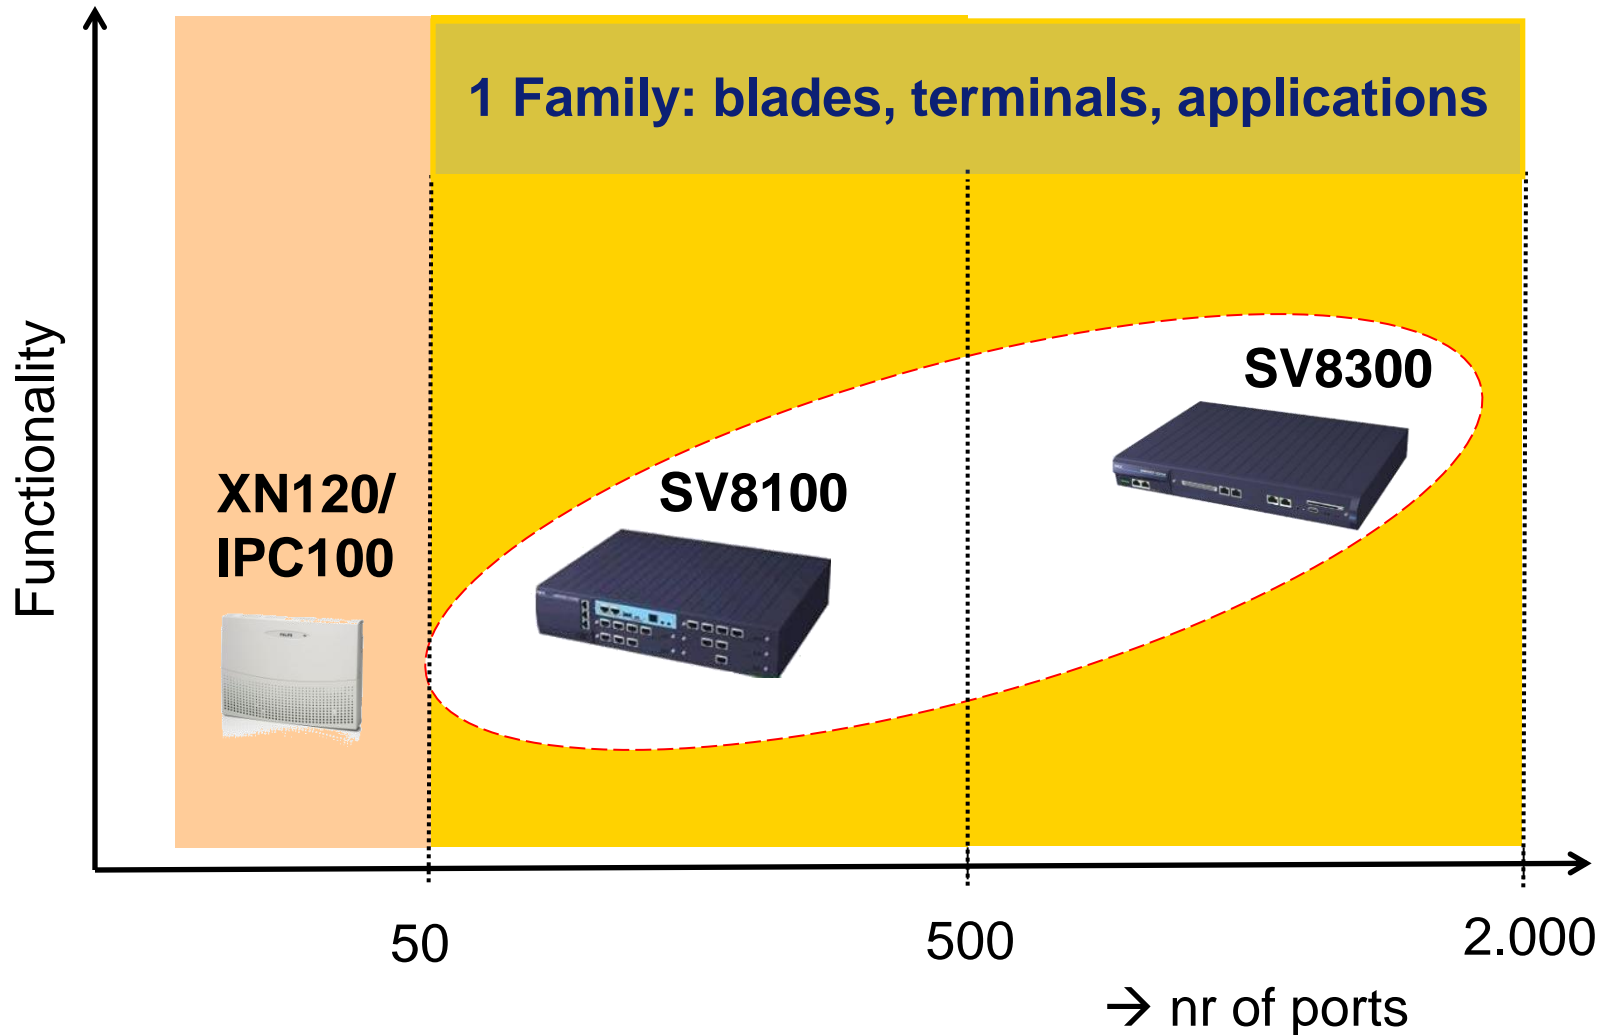

**Solution selling** (*more than a box*)  
**with focus on applications** (*right from the start*)  
**based on value propositions** (*later in this presentation*)

## Pure IT system, supporting:

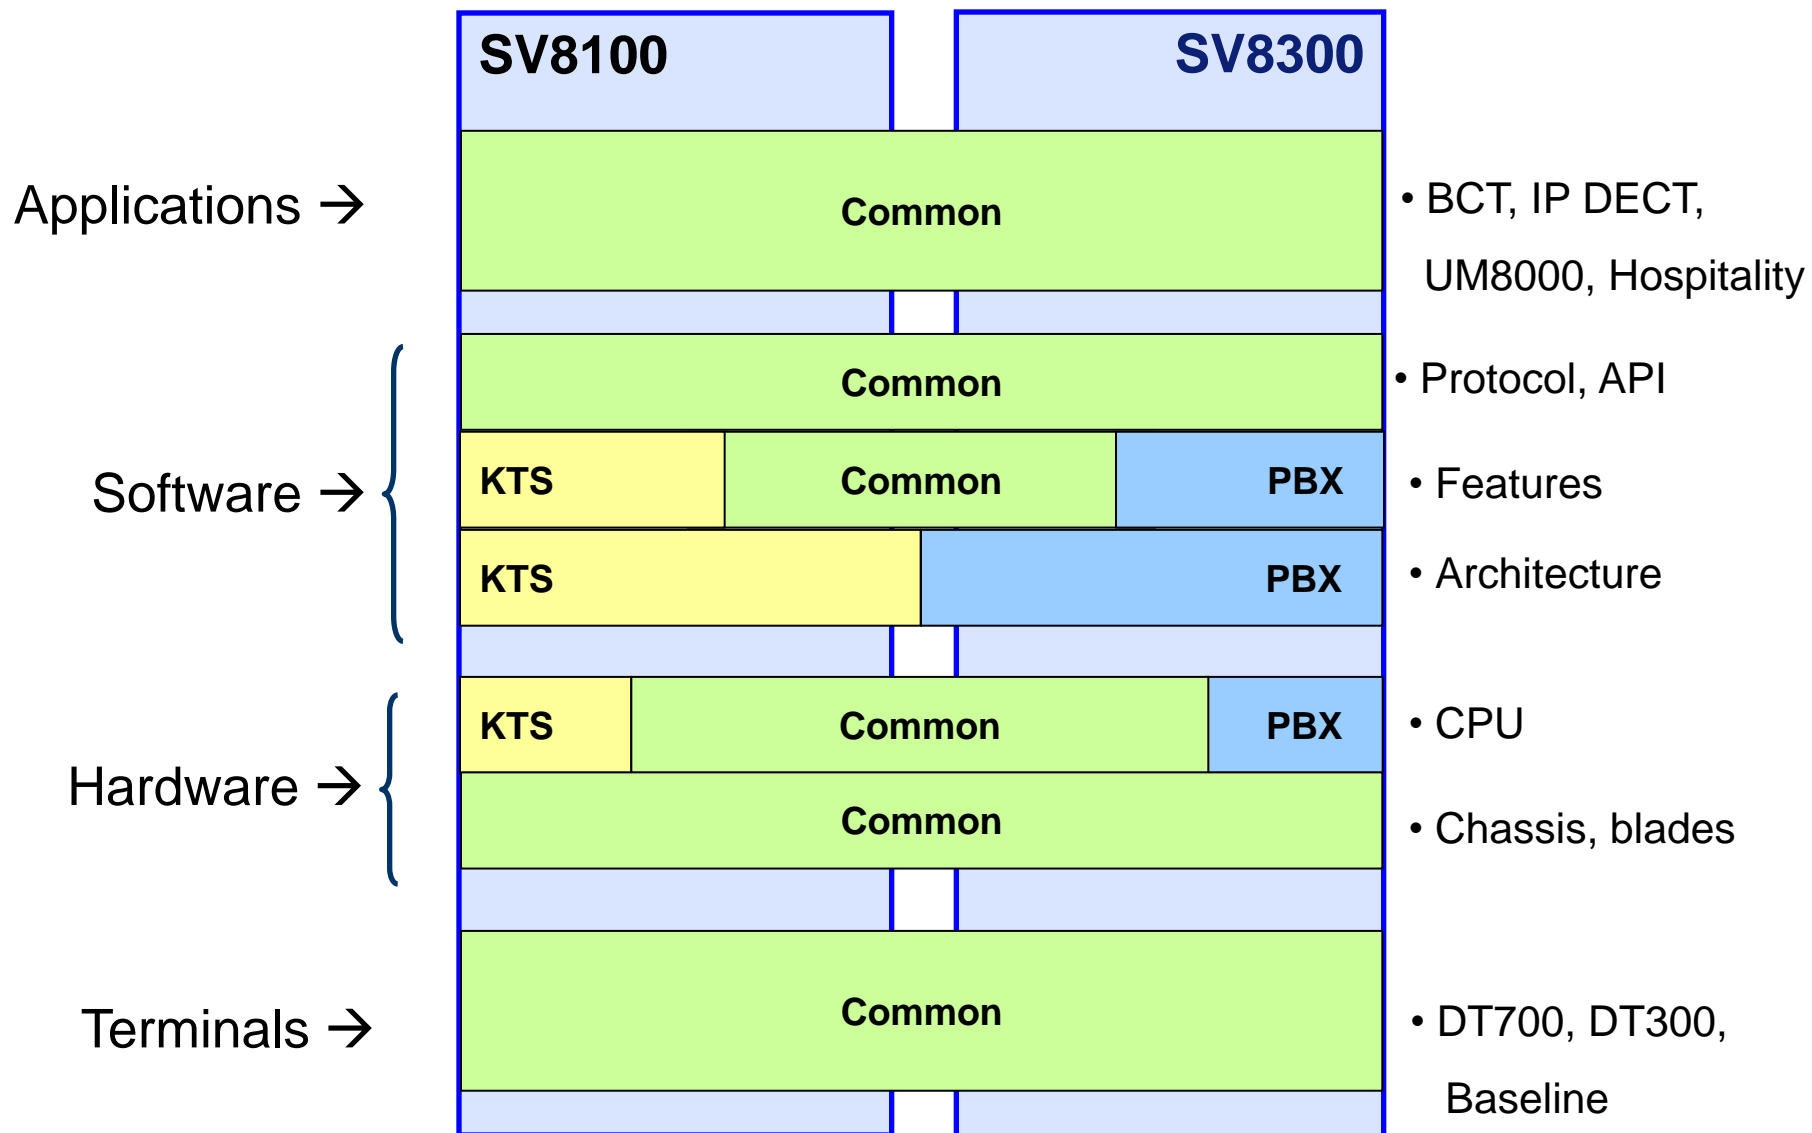

- New terminal range
- IP DECT
- Business Connect
- Embedded applications
- Management applications
- Multiple sites with NetLink

# SV8x00

# SV8x00

# SV8x00 functionality

## SV8100

- Positioning 30 – 500 users
- Sweet spot 40 – 120 users

- Key system functionality
- Easy to configure (plug & play)
- Embedded call centres
- Limited OAI

## SV8300

- Positioning 100 – 2000 users
- Sweet spot 100 – 500 users

- Enterprise customer, including network edge
- Stronger networking (eg CCIS)
- Mature OAI and CTI (coming)
- Extensive mgt: MA4000, SNMP
- Strong operator
- Much higher performance (telephony and OAI)
- External call centres

# SV8x00 Hotel

## SV8100

- Positioning 30 – 500 users
- Sweet spot 40 – 120 users

- Hotels up to 3 stars
- Hotels up to 120 rooms
- Excellent for mass distribution
- Our channels: SV8100 partners, distributors, partners

## SV8300

- Positioning 100 – 2000 users
- Sweet spot 100 – 500 users

- Strong Hotel features: Hotels from 3 stars and up
- Networking with full system mgt
- Capacity in users above 512
- Enterprise functionality required
- SV8300 has about 150 features more than SV8100
- Value add resellers, system integrators

# SV8x00 Applications

User requirements	Options in SV8100 solution		
Management	PC Pro	WebPro, UserPro	
Accounting	MyCalls		
Call recording	MyCalls (ISDN, CO, SIP trunk)		
Operator	BCT, BCT Express	Desktop Suite PC Attendant	
Employee	BCT	Desktop Suite PC Assistant	
ACD	InACD (+ MyCalls)	BCT	
Contact Centre	BCT		
Softphone	Desktop Suite SP310		
Voicemail	InMail	BCT	UM8000
Unified Messaging	UM8000		
Unified Communications	BCT		
Wireless	SIP DECT	VoWLAN	
Hospitality	PMS adapter	Tiger, UM8000	

# SV8x00 Applications

## Desktop application equipped with:

- Softphone
- Chat / Instant Messaging
- File Transfer
- White Boarding
- Application Sharing
- Video

# SV8100 – Call centre

## **Business ConneCT**

- + User application integration
- + Identification module
- + Skill Based Routing
- + Outbound Routing
- + Email Routing
- + Wall Board

## **MyCalls**

- + Real time Monitoring
- + Detailed Call Reporting & Alarming
- + Call Recording
- + Call Statistics

## **InACD**

- + Embedded

# SV8100 – VM / UM

## **UM8000**

- + Unified Messaging: voicemail, email, fax, videomail
- + In-skin blade, Linux
- + 16 voice ports, 65.000 mailboxes, 512 UM seats
- + Personal web-based mailbox mgr
- + Notifications, Text-to-speech, Call record
- + Hospitality for enhanced guest/wake up features

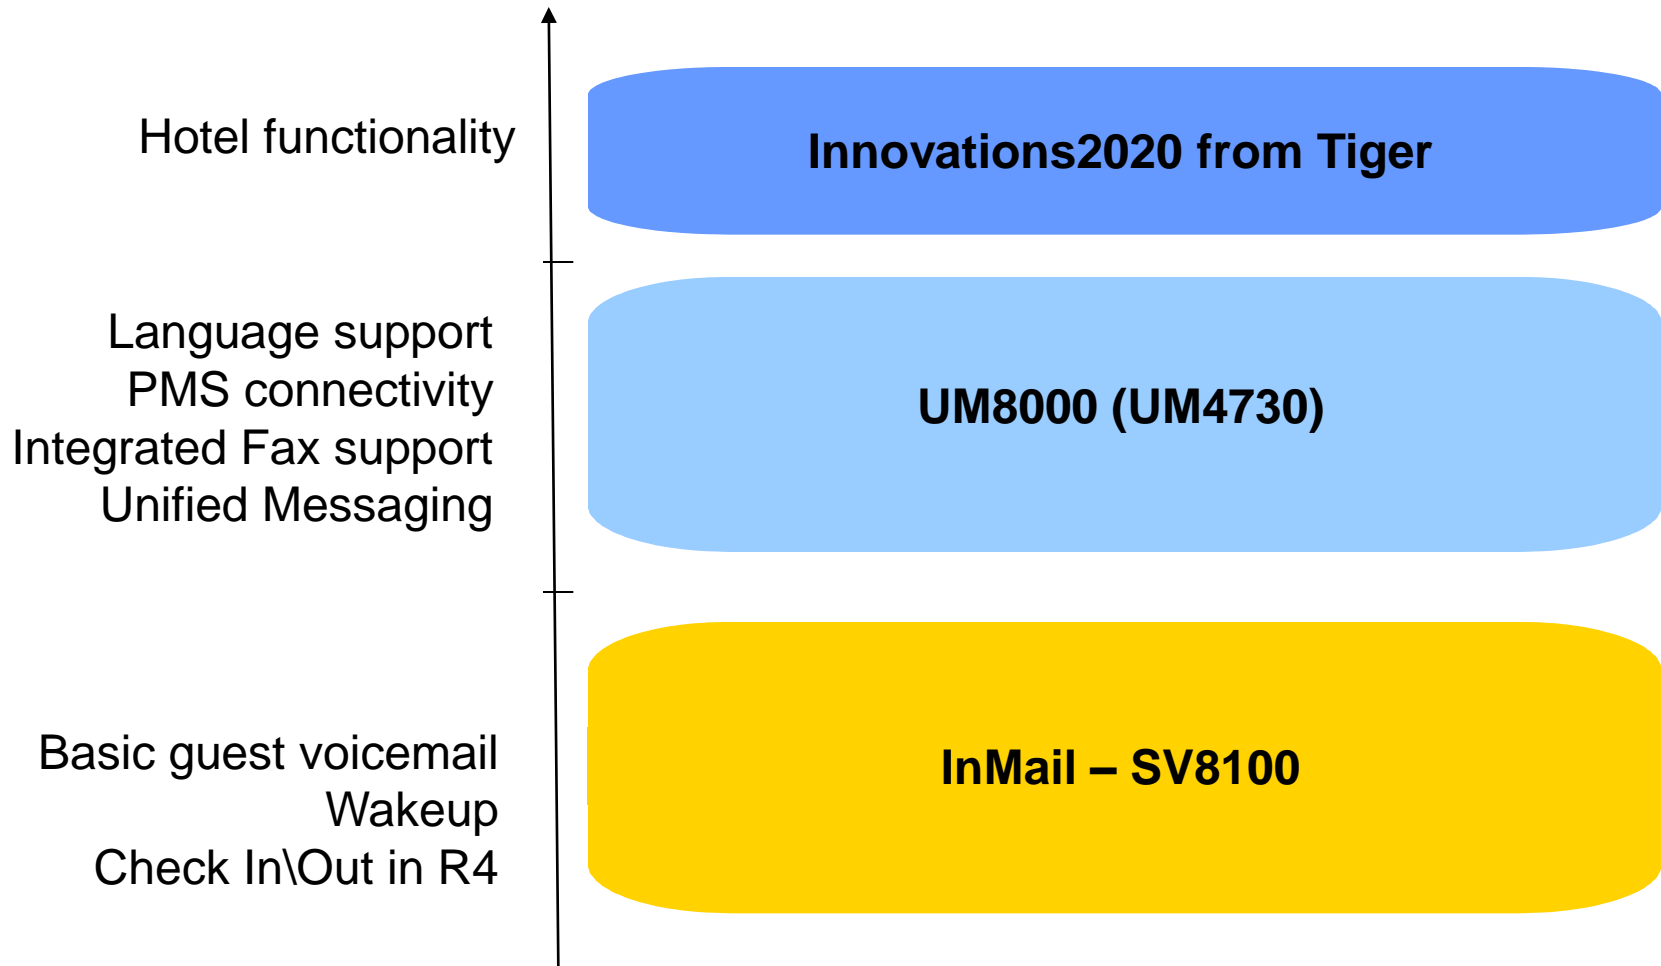

## **InMail**

- + Cheap embedded solution
- + Auto Attendant
- + Voice Response System
- + 16 voicemail channels
- + 512 mailboxes
- + 32 group boxes
- + PC Pro

## **Business ConneCT**

- + Server based solution
- + 2000 mailboxes
- + Integrated with UC and CC
- + List of received VMs
- + Greetings linked to presence

# SV8100 – hospitality

# Value propositions

**IT look and feel**

**Pure IP system - with hybrid capability**

**Support of new sophisticated IP / digital terminals**

**Standard SIP technology**

**Distributed system with full transparency up to 50 sites**

**Remote site survivability**

**Enhanced embedded and in-skin applications**

**Enhanced management tool with wizards**

# Value propositions

**Easy installation and management**

**High quality secure wireless: IP DECT**

**Full PBX integration of mobile device**

**Support of vertical market solutions (Hospitality)**

**Open Application Interface (PMS certifications, CTI)**

**Integrated application suite based on SOA**

**SV8100 and SV8300 – one family**

**All in one solution: Application, router, switch, PC board**

Empowered by Innovation

**NEC**
